## PROGRAMME

12 Months

We were commissioned by Sports Direct to provide subject matter expert support in relation to asbestos liabilities following the acquisition of House of Fraser.

Services provided included;

- Assessment and ratification of asbestos data across the entire House of Fraser Estate.
- Preparation and submission of gap analysis data in relation to statutory compliance information.
- Undertaking a complex programme of asbestos management surveys across the Estate in line with the gap analysis.
- Support with the development and integration of a Group Asbestos Management Plan.
- Preparation and submission of a detailed commercial strategy on current and future compliance liabilities, split by region, store and floor.
- Undertaking a programme of reactive and planned asbestos remediation works Nationally.
- Acting as key client representative during communications with all relevant regulatory authorities throughout the store transitions across every region.
